

China Healthcare Advancements and Longevity Exploration Mission

April 21-28, 2024

Delegation Mission: Advancements in Anti-aging and Healthcare

Target participants: clinic owners, doctors, esteemed medical practitioners, owners of product brands associated with healthcare services

Embark on an 8-day business expedition meticulously designed to explore the forefront of the Healthcare industry in China.

The journey will span four key cities, culminating in attendance at the prestigious "**2024 International Medical Tourism Fair & Conference**" in Shanghai. This event will serve as a pivotal platform, placing a significant emphasis on cutting-edge anti-aging and longevity innovations.

Throughout the delegation, participants will have the **unique opportunity** to visit 12 prominent healthcare facilities, encompassing both public and private establishments.

The primary objective is to gain comprehensive insights into the latest developments and trends in the industry. **The focus on anti-aging and longevity aims to uncover promising prospects for collaboration between Switzerland and China.**

Our delegation is strategically positioned to engage with influential **decision-makers, fostering dialogue and establishing connections** for tailored and exclusive Swiss-Sino collaborations. This initiative is designed to create a platform for our members to explore and capitalize on promising business opportunities in the dynamic and evolving Chinese healthcare landscape.
